# CBU-87/89/94/97

## Cluster Bomb

item

13

The SUU-64/65/66 Tactical Munitions Dispenser is used by the USAF to deliver multiple submunitions against soft targets. All variants are similar in appearance.

The CBU-87 Combined Effects Munitions is an all-purpose weapon containing 202 BLU-97 bomblets. The CBU-89 GATOR contains 72 BLU-91 anti-tank mines and 22 BLU-92 anti-personnel mines. The CBU-94 "Blackout Bomb" uses BLU-114 submunitions to short-circuit power distribution facilities. The CBU-97 Sensor Fuzed Weapon contains 10 BLU-108 submunitions which contain 4 infrared sensing projectiles, for a total of 40 armor-penetrating projectiles able to detect armored targets.

The CBU-87 & 89 were first used in Desert Storm. The CBU-94 was first used in Allied Force by F-117s. The CBU-97 was first used in Iraqi Freedom.

For  
use by

A-10, B-52, B-1

F-15E, F-16, F-117

### Assembly & Paint

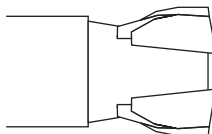

The above two diagrams show common configurations used today by the A-10 & F-16, both of which usually carry 4 of the weapons.

This cluster bomb series is also currently used by the B-1, B-2, B-52, F-15E, and F-117. It was used in the past by the F-4G and F-111. It is also used by many NATO allies.

- Aluminum
- Olive Drab
- Black

Notice that the diameter of the tail unit is slightly smaller than the canister unit
